

Renan Matos

Senior 3D Character Artist

renanmatos220594@outlook.com renmatsi.github.io linkedin.com/in/renmatsi renmatsi.artstation.com github.com/renmatsi Brazil · Remote

PROFESSIONAL SUMMARY Senior 3D Character Artist with professional experience creating real-time characters and assets for games. Former Lead 3D Character Artist at Gameplay Galaxy, with hands-on work across sculpting, anatomy, garment creation, grooming, retopology, UVs, PBR texturing and engine integration. Experienced in leading artists, organizing production workflows and adapting visual quality to technical requirements.

CORE SKILLS

Character art: Realistic and stylized characters, anatomy, digital sculpting, garment creation, cloth simulation, grooming and hard-surface props.

Production: Retopology, UV mapping, baking, PBR texturing, real-time optimization and engine integration.

Leadership: Team guidance, mentoring, production workflow organization and cross-functional collaboration.

Software: ZBrush, Blender, Maya, Substance 3D Painter, Marvelous Designer, Marmoset Toolbag, Photoshop and Python.

TECHNICAL TOOLS Developed and tested custom Blender 5.2 add-ons in Python for procedural modeling, topology creation and artist workflow automation.

Selected add-ons: Cuttr — parametric topology stamping; Weaver — procedural fabric and weave generation; Knot Forge — parametric 3D knot generation.

PROFESSIONAL EXPERIENCE

Gameplay Galaxy Jan 2023 — May 2026
Lead 3D Character Artist · Remote

- Led and mentored the character-art team while remaining directly involved in production.
- Created game-ready characters across sculpting, garment creation, grooming, retopology, UVs and PBR texturing.
- Collaborated with concept, animation and engineering throughout character production and integration.

Fire Games Studios Jan 2022 — Feb 2023
3D Artist / 3D Generalist · Remote

- Modeled and textured characters, props and environments for in-game use.
- Supported rigging, integration and generalist workflows for prototypes and indie productions.

Fiverr · Freelance Jan 2020 — May 2022
3D Modeler · Remote

- Delivered custom 3D assets for international clients across games, AR/VR and animation.
- Adapted assets to different visual styles, production needs and target platforms.

BeByte Sep 2017 — Feb 2022
3D Generalist → Lead · Brasília · Hybrid

- Promoted from 3D Generalist to Lead after approximately three months with the company.
- Worked across modeling, texturing, rigging, animation and game-engine integration.
- Led artists and helped organize production workflows while remaining hands-on with 3D delivery.
